Subject: 1/29/2021 Testing Update
Date: Sunday, January 31, 2021 12:16:00 PM

Good afternoon,

Health Services has confirmed the following results from the 72 COVID-19 tests administered on [Friday, January 29, 2021](#)

- 71 negative tests
- 1 test not able to be processed (this individual will be re-tested).

As a reminder, all students on campus who arrived since Thursday (1/28/2021) will quarantine in their rooms until the College has received “day-0” test results for **all students**. We estimate this to be until Monday morning.

The College will be providing updates like this one on scheduled testing throughout the semester as results are returned to the College (usually within 24-36 hours). Please see our [Spring_2021_COVID-9_PCR_Testing_Calendar](#) for all of our currently scheduled testing dates.

Please let us know if you have any questions.

Michael Luciani, MBA

Vice President for Student Affairs & Dean of Campus Life
